

The Filter Boss™ Has Solutions!!

Pacific Air Consultants, Inc.

Electronics Company required ventilation to (4) identical work stations at individual times. Instead of installing (4) individual collectors, Pacific Air Consultants proposed a central wet collector by Filter-1 and an IVEC Systems control system with (4) remote on/off switches and (4) Motorized blast gates. The controller's PLC will allow only (1) gate to be opened at (1) time and is controlled by the operator at the workstation for on-demand ventilation.

Job Scope:

- (1) Filter-1 Model HWF-6-70-15 Hybrid (stainless steel on Wetted areas) Wet Collector with afterfilter
 - (1) IVEC Control System with Motorized Gates and Remote Push Button Controllers
 - (1) Clamp Together Ducting System
- Mechanical & Sheet-Metal Installation by Pacific Air

Manufacturer: Filter-1 (Wet Collector), IVEC Systems (Controls)

Sales Rep: Nick Schlentz
