**Founded in 1991, Pacific Air Consultants has become a leader in the Industrial Air Pollution Control Industry. Call on us today for design ideas and technical support for your Dust, Smoke, Vehicle Exhaust, or Oil Mist project Today!**

PlymoVent, the best and most efficient, Vehicle Exhaust, Weldsmoke, Oil Mist, and Dust Collection systems. Hose Reels, Extractor Arms, & Cartridge-Type Dust Collectors. Energy saving controls are our specialty.

Murphy Rodgers, the perfect solution for small & Medium Sized Workshops! Shakers, Pulse-jet Baghouses, Cyclones, After-filters, & More!

Premium clamp together industrial ductwork. All Branch fittings, elbows, pipe, and slip sections...custom transitions, automatic blast gates, silencers, and more. Cut installation time by 40-50%! Ductwork sizes from 3" to 24" diameter including odd sizes and flanged to 40" dia. Free 3-D design services. All parts also available in Stainless Steel.

Filter-1 High Efficiency "Wet-Type" Dust Collectors & Downdraft Tables. Vertical & Horizontal Cartridge Collectors, Oil Mist control, and Environmental Control booths.

Masterduct Abrasion Resistant hose for dust collection, Hi-Temp hose to 2000 Deg. F. for Vehicle Exhaust, Suction and Blower hoses for HVAC, Chemical & Oil Resistant hoses, and Commodity-Type general purpose products.

The "Perfect Design" for cartridge collectors. Amtech's unique downflow - vertical cartridge arrangement minimizes re-entrainment and gives you the ultimate in filter-life compared to traditional downflow horizontal collectors and upflow vertical cartridge and bag collectors. Heavy-duty welded steel construction and integral fan assemblies. Models from 2 to 128 cartridges.

Diversi-Tech Downdraft tables for grinding, sanding, welding, deburring, and more. Standard and customized products available.

SDC Super Efficient Baghouse Collectors, Cartridge Collectors, Bin Vents, & Fume Collectors. Systems to 100,000 CFM & Larger!

TM  
**The Filter Boss**

Fans and Blowers built for industrial applications... Material Handling, abrasive airstream, corrosive gases, alloy construction, special finishes for dairy and pharmaceutical, spark resistant, explosion proof, special coatings and linings, temperatures to 1200F, flows to 350,000 CFM, pressure to 140" W.G. AMCA tested and rated for reliable air and sound performance

Unique Environmentally friendly collectors for Welding smoke and Oil Mist. By incorporating recycled high density polyethylene plastic panels over steel framework...these air cleaners are lighter, less expensive, non-corrosive and friendly to the environment. Free hanging air cleaners, vertical oil mist collectors, robot welding hoods and more! Full steel cabinets available as and alternate.

#### FILTERS:

All Filters, Industrial & HVAC. Cartridges, bags, cages, pleated filters, HEPA filters, ASHRAE filters, CARBON SYSTEMS, and more.

#### VFDs:

AC TECH, ABB, & Danfoss VFDs, and pressure transmitters.

#### DUST COLLECTOR ACCESSORIES (ALL BRANDS):

High speed abort gates, manual and automatic blast gates, rotary air locks, screw conveyors, diaphragm & solenoid valves & enclosures, timer boards, and all filters. If it goes in or on a dust collector we can get it for you!

#### DUROVAC:

Complete line of Industrial Vacuum Systems. Portables and Central Systems.

#### TRION:

Air Cleaners, Kitchen Exhaust Systems, Dust Collectors, and Oil Mist control.

#### DUCTMATE:

Labor saving duct hanging systems, sealants, access doors, connectors, and other duct accessories.

#### FLAMEX:

Spark Detection & Extinguishment systems.

#### DWYER INSTRUMENTS:

Photohelic, Magnahelic, & Minihelic pressure gages. + Testing instruments, pressure transmitters, and specialty gages.

#### FIKE:

Ductwork & Dust Collector Explosion Vents.

#### CRUSHPROOF TUBING COMPANY:

Simple Garage exhaust systems using crushproof hose and adapters. Overhead and Underground systems.

#### CUSTOM CONTROL PANELS:

Our Manufacturers have the capability to design and build UL labeled panels to your specifications.
