

Grabber[®] Vertical Stacker

Today, many over-the-road and off-road vehicles utilize vertical exhaust stacks. PlymoVent has developed its' Grabber[®] Stacker in partnership with two of the worlds' leading truck manufacturers.

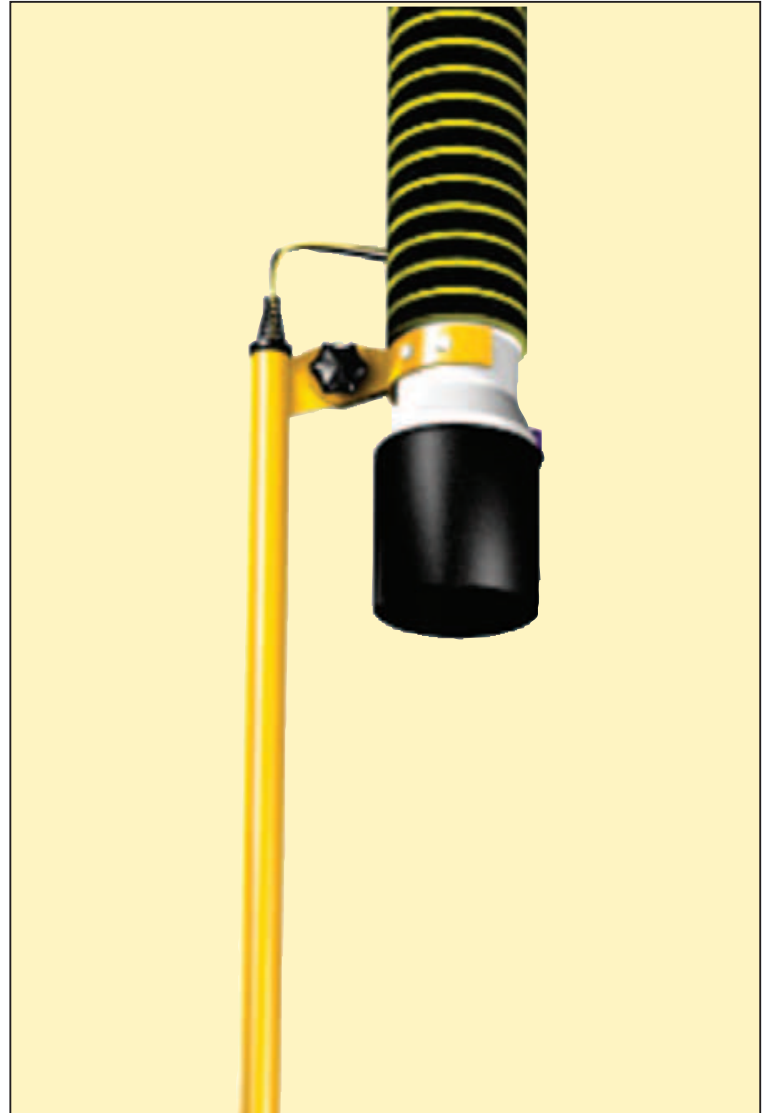

Grabber[®] Stacker

The Grabber[®] Stacker has all of the quality features of the standard Grabber[®] for undercarriage vehicles, but incorporates a one piece light weight aluminum lifting pole.

The stacker eliminates the need for the operator to climb on the vehicle to attach the nozzle. This eliminates the safety hazard of falling off the vehicle or coming into contact with the hot exhaust tailpipe.

Features and benefits

- Flexible swivelhead to adjust to any tailpipe discharge angle
- Manual or automatic deflation
- High reach pole for tall stacks
- Internal airline feed
- Lightweight for easy nozzle attachment

TECHNICAL DATA

Prod. no.	Dimension exhaust hose	Inner dimension nozzle	Weight without hose
GVS-125-160	Ø 125 mm/5"	Ø 160 mm/6.3"	8.0 kg/18 lbs
GVS-150-200	Ø 150 mm/6"	Ø 200 mm/8.0"	9.5 kg/22 lbs
