

The PlymoVent mission

PLYMOVENT[®]
INTELLIGENT PROCESS VENTILATION™

It is PlymoVent's mission to bring public awareness to the health hazards of vehicle exhaust emissions and the financial impact that it imposes and the risk to your health and that of your fellow employees.

To accomplish this mission it is PlymoVent's goal to provide Intelligent Exhaust Ventilation Systems that will capture and collect 100% of the toxic exhaust from all the vehicles in your workplace. This mission will benefit you and your employees by protecting all of you from contracting illnesses, that could prove fatal, by removing proven dangerous engine emissions.

As an employer you will improve working conditions reducing future liabilities and employee grievances at poor working conditions. You will reduce energy consumption and reduce costs by replacing inefficient ventilation methods, this will in turn yield a quick return on your investment in PlymoVent Vehicle Exhaust Ventilation Systems.
