

# Financial justification

Here are just a few returns on your investment

■ Here are the top ten reasons to invest in a PlymoVent Vehicle Exhaust Removal System.

**Before**

**After**

1. Protect employees' health from toxic exhaust emissions.
2. Protect sensitive equipment and computer systems from carbon black and chemicals that damage electrical components.
3. Increase employee productivity by improving morale.
4. Reduce maintenance costs and improve the image of your facility by controlling oil-film, carbon black and odors from spreading through your workshop.
5. Reduce insurance costs by controlling the risk of workers' compensation claims.
6. Save money by not having to exhaust high volumes of heated or conditioned air from your workshop.
7. Reduce union grievances resulting from this workplace hazard.
8. Reduce filter replacement on diagnostic equipment and heating and cooling systems.
9. Meet or exceed country, state and city health codes or standards.
10. **Maximize the quality of life in your workplace.**
